SUBMISSION OF SUBSTITUTE SEQUENCE LISTING

SIR:

In a Notice to File Missing Parts of Nonprovisional Application ("the Notice") mailed May 16, 2001, the Office advised Applicants that the computer readable form of the Sequence Listing does not comply with the requirements of 37 C.F.R. §§ 1.822 and/or 1.823. In reply, Applicants enclose a substitute computer readable form of the Sequence Listing and a substitute paper copy of the Sequence Listing. In response to the marked up "Raw Sequence Listing" attached to the Notice, the substitute Sequence Listing now includes a corresponding explanation in the <220> to <223> fields for the use of "n" in SEQ ID No. 1 and a deletion of an invalid amino acid number in the coding region of SEQ ID No. 3.

In connection with the Substitute Sequence Listing submitted concurrently herewith, the undersigned hereby states that:

1. the submission does not include new matter; and
2. the content of the written Substitute Sequence Listing and of the computer readable copy of the Substitute Sequence Listing are the same.

Should any fees be required to comply with this requirement, please charge our deposit account 06-0916.

The signature of the undersigned is provided by Yuko Soneoka, who is given limited recognition under 37 CFR § 10.9(b) to prosecute patent applications. A copy of the document granting her limited recognition is enclosed.

Respectfully submitted,
